RESOLUTIONS.

WHERAS on April 28, 1959, God in His Infinite Wisdom, called from our midst to his eternal reward, in that home "beyond the Sunset," our beloved friend and co-worker, Thomas Walker Moses; and

WHERAS through a long and useful life, he was a loyal and consistent member of this Church, and served as a Steward and Treasurer of the Church School for more than fifty (50) years, and also in various other capacities, to all of which he gave himself unreservedly, and performed all duties faithfully and diligently; and

WHEREAS his departure has caused a vacancy, which will deprive the Church of a trusted and consecrated Official, the community an esteemed citizen, and his home a devoted Husband and Father;

THEREFORE, BE IT RESOLVED:

FIRST: That we, the Official Board of Memorial Methodist Church, Appomattox, Virginia, record our appreciation of his noble character, and influencial life, and offer this tribute of respect to the memory of him, who gave friendliness, encouragement and support to our program of work and efforts to promote the Kingdom at home and around the world.

SECOND: That we extend to his family our sincere sympathy, in their hour of bereavement, and point them to the sustaining power of Him, who "doeth all things well."

THIRD: That copy of these Resolutions be sent to the Family, a copy published in the Times - Virginian, and a copy spread upon the minutes of this Board.

IN FASHION NOW

If you are not sure that we are living in an age of adventure and exploration, just look at the cosmetic picture for 1959.

This new book is titled the Lunar Look. When done perfectly, it is new, but becoming and attractive. We can hardly see ourselves hanging out the family wash made up with the new Lunar Look, but on the other hand, what's so great about hanging out the family wash? It's not romantic, it's not exciting, and it's certainly not fun. This new look in makeup is all these things.

This is not a completely new look for it has been several years in the making. Component parts of it — wigs, artificial eyelashes, hair color, lighter lipstick — have been coming into orbit gradually.

The basis of the lunar look comes from a subtle whitening of the complexion and lips to dramatize the color of the eyes and the hair.

Never have there been so many new cosmetics on the market at one time. The big effort is to give us pearled lipstick, blue, powder eye shadow, and finger nail polish. The new luster is most often grounded oyster shells. The effect is lovely.

The big change is that women are really going to wear these items. Perhaps the hair colors will be left out in the cold, for they range from violet and green through pink and orange.

The styling of the hair is important and should be kept narrow, piled high at the crown and close fitting over the ears. Longer hair is forecast, with little emphasis on curls. Sheen and deep waves are the thing. Wigs and hair pieces of all kinds will be used.

Artificial eyelashes are news again this season, so you may as well break down and try a pair. Mascara is being sold in brilliant royal blue, purple, emerald and forest green. Eyeliners come in these same colors as well as the standard black and brown.

Eyeshadow has gone wild with many new colors such as silver, gold, and a whole group of bronze shades.

Blue whale is feared to be facing extinction.
